

WORK INSTRUCTION

Gratch Graffiti Remover

Revision: 2021.1

Product description

Graffiti remover, suitable for nearly all surfaces, porous as well as smooth. Biodegradable. Applicable on buildings (concrete, brick, marmor, granite), busses and trains (paint, interior, rubber, glass), call boxes and mailboxes. Works fast and effectively.

Technical properties

Colour	colorless to faintly yellow
Density	0,94
pH-value	6
Usage	2 - 10 m ² / ltr

Instructions for use

Do not dilute Gratch Graffiti Remover. Product is ready to use. Spray the polluted surface with Gratch. Leave it to work 1 to 10 minutes (depending on kind of surface). The graffiti will be soaked-up and is encapsulated. If necessary re-spray the surface (should not get dry).

Squirt off the pollution with hot water under high pressure (min. 150 bar, 80°C). The cleaning is finished when frothing stops. On rough non-smooth surfaces like brick, squirt from different angles, an option is to use a rotating head on the squirt-lance. Smooth surfaces can easily be cleaned with a sponge and hot water. If necessary please repeat the cleaning-procedure.

Treat a maximum of 1 m² at one time.

Packaging

1 - 10 liter cans

Storage and shelf life

Shelf life is unopened minimal 24 months

Store frostfree in a dry and cool place

Keep container tightly closed

Quality and safety regulations

Read safety instructions before use (MSDS). Keep out of reach of children.

The effectiveness of this system is based upon years of practical experience and laboratory research. The manufacturer / supplier guarantees that the quality of the work meets the characteristics that were promised by the manufacturer / supplier, if the provided instructions are adhered to and the work has been executed according to the requirements of skilled workmanship. The manufacturer / supplier is not liable if the final result is affected in a negative way by factors that are uncontrollable. The buyer must check with the regular means available to him if the supplied products are suitable for the intended application.
