USER MANUAL

version 2011.1

Product description

Graffiti remover suitable for all mineral surfaces, porous as well as smooth. For multiple layers. Biodegradable. Applicable on concrete, brick, marlstone and more. Works effectively.

Technical properties

Colour	colorless
Specific gravity	1,01
PH-value	7
Usage	depending on kind of surface; 2 - 10 m ² /l

Application

Do not dilute Gratch Ultra Gel. The gel is ready to use.

Rub the polluted surface with Gratch Ultra. Leave it to work from 30 minutes up to 4 hours (depending on kind of surface).

Squirt off the paint layer with hot water under high pressure (min. 150bar, 80°C). On rough non-smooth surfaces like brick, squirt from different angles. If necessary please repeat the cleaning-procedure or remove shadows with Gratch SRA Shadow Remover.

Always test a small area before you start.

Storage and shelf life

In original, closed packing 24 months, provided that it's stored frost-proof.

Cleaning materials

Rinse the sprayer with water after use and check the rubber gaskets.

Safety regulations

The ruling precautions for handling chemicals must be observed. Wear suitable protective clothing, gloves and use inhalation protection if there is not enough ventilation. Avoid contact with eyes and skin. In case of accidental contact with the eyes, immediately flush with plenty of water. Get medical attention. In case of exposure to skin, wash with water and soap. In case of swallowing, immediately rinse out mouth, do NOT induce vomiting, drink two glasses of water and get medical attention. The effectiveness of this system is based upon years of practical experience and laboratory research. The manufacturer / supplier guarantees that the quality of the work meets the characteristics that were promised by the manufacturer / supplier, if the provided instructions are adhered to and the work has been executed according to the requirements of skilled workmanship. The manufacturer / supplier is not liable if the final result is affected in a negative way by factors that are uncontrollable. The buyer must check with the regular means available to him if the supplied products are suitable for the intended application.
