

WORK INSTRUCTION: *Glass Precleaner*

RV-01

Revision: 2010.1

Product description

A glass pre-cleaner for Glass Protector RV-05. pH-neutral, water-based. Intended to thoroughly pre-clean glass for glass improvement. Also intended to remove scale, cement residue, etc.

Advantages

Why is Glass Precleaner better than other precleaners:

1. Thoroughly cleans in one treatment, even older glass.
2. Environment-friendly; water-based; no poisonous fumes, pH-neutral.
3. Not flammable; EcoSafe.
4. Easy and fast to handle.
5. Water not required.
6. Non-aggressive; other façade materials remain undamaged.

Technical properties

Colour	transparant
Specific gravity	1,05
PH-value	7,5
Usage	40 m ² / ltr.

Applicable surfaces

All types of glass (not on etched or sandblasted side).

Reaction system

Cleaning is activated based on manual and / or mechanical processing.

Processing temperature

Between 5°C and 35°C.

Pre-treatment

Advice: first test a small area to see if the result meets the expectations.

Instructions for use

Shake well before use.

Apply undiluted with a soft cloth or a soft nylon pad.

Manually spread the product until contamination has disappeared completely.

If necessary, thoroughly rinse the surface and dry.

After this initial cleaning, Glass Protector RV-05 can be applied.

Packaging

1000 ml. bottles.

Storage and shelf life

Shelf life is unopened minimal 12 months.

Store frostfree in a dry and cool place.

Keep container tightly closed.

Processing thickness

<i>Usage</i>	<i>Thickness</i>	<i>Surface</i>
40 m2 / ltr.	0,010 mm	Total average

Quality and safety regulations

Read safety instructions before use (MSDS). Keep out of reach of children. During application wear suitable respiratory equipment.

The effectiveness of this system is based upon years of practical experience and laboratory research. The manufacturer / supplier guarantees that the quality of the work meets the characteristics that were promised by the manufacturer / supplier, if the provided instructions are adhered to and the work has been executed according to the requirements of skilled workmanship. The manufacturer / supplier is not liable if the final result is affected in a negative way by factors that are uncontrollable. The buyer must check with the regular means available to him if the supplied products are suitable for the intended application.
